

Publication of the following list of regulatory measures which *potentially* could be considered for revision or development in 2023 is required by California Health & Safety Code Section 40923.

Rule Developments to Conform to State and/or Federal Law:

- Air Toxic Emissions
- All Feasible Measures
- Architectural Coatings
- Boilers
- Bulk Gasoline Plants & Terminals
- Compliance Alternatives
- Compost Facilities
- Crude Oil Production Wells
- Electric Power Boilers
- Emissions Banking
- Gasoline Distribution, Storage & Transfer
- Combustion Equipment
- Internal Combustion Engines
- Interchangeable Credits
- Maximum Available Control Technology for Hazardous Air Pollutants
- Metal Parts Coatings
- Minor Violations
- Municipal Solid Waste Landfills
- National Emission Standards for Hazardous Air Pollutants
- New Source Performance Standards
- New Source Review
- Nitrogen Oxides
- Non-architectural Coatings
- Oil and Gas Facilities
- Oil-water Separators
- Organic Liquid Storage
- Ozone Depleting Compounds
- Particulate Matter
- Portable Equipment
- Prevention of Significant Deterioration
- Process Heaters
- Solvents
- Solvent Cleaning & Degreasing
- State Air Toxic Control Measures
- Steam generators
- Sulfur Compounds
- Sulfur in Fuels
- Title IV: Acid Deposition
- Title V: Federal Operating Permits
- Title V: General Prohibition
- Title V: Synthetic Minor Sources
- Toxic New Source Review
- Transfer of Gasoline into Vehicle Fuel Tanks
- Water Heaters

Rule Developments for Continuity of Existing Programs:

- Administrative Civil Penalties
- Animal Matter Reduction
- Appeals
- Applications
- Asbestos
- Breakdowns
- Building Removals
- Open Outdoor Burning
- Continuous Monitoring
- Definitions
- Emission Data
- Nuisances
- Regulation I: General Provisions
- Regulation II: Permits
- Regulation III: Fees
- Regulation IV: Prohibitions
- Regulation V: Orchard & Other Crop Heaters
- Regulation VI: Hearing Board Rules
- Regulation VII: Emergencies
- Regulation IX: Public Records
- Regulation X: Toxic Air Contaminants
- Regulation XI: Stratospheric Ozone Protection
- Rewards
- Permit Streamlining
- Sampling & Testing
- Visible Emissions
- Wastewater Treatment Plants

Rule Developments for Potential New Programs:

- Open Burning Permit Fees
- CEQA Review Fees
- Reporting of Criteria Air Pollutants and Toxic Air Contaminants to the California Air Resources Board
- Residential Wood Burning, including seasonal prohibitions on use, time of sale change-outs, and allowable materials to burn

As part of the District's compliance assistance effort, many if not all existing rules within Regulations I-XI may be modified for ease of understanding.
